IN THE SPECIFICATION

Please amend the specification by replacing paragraph 0103 on pages 39-40 with the following:

-- The present invention also provides a kit for detecting or identifying HH or anaemia comprising: a) means for collecting a sample of ~~breast epithelial cells~~; b) means for detecting an ~~inhibitor of phospholipase A_{sub.2}, such as uteroglobin~~, in the sample of ~~breast epithelial cells~~; and c) at least one reference which correlates to the amount of ~~inhibitor of phospholipase A_{sub.2} in normal breast epithelial cells or in metastatic breast cancer cells~~, wherein differential amounts of ~~the inhibitor of phospholipase A_{sub.2}~~ between the sample and the reference detects or identifies metastatic breast cancer HH or anaemia.--
